

# ICC/SRCC/APSP POOL SOLAR WATER HEATING AND COOLING SYSTEM STANDARD

The first meeting of the ICC Pool Solar Heating and Cooling Standard Consensus Committee (IS-PSHC) will be held October 14th, 2015

---

---

## - MEETING NOTICE -

---

---

The meeting will be held 2:00– 4:30 PM ET, October 14, 2015 via conference call and webconference.

**CALL-IN NUMBER**  
**Dial-In: 800-910-8278**  
**Conference Code: 1397510**

The accompanying webconference to allow the callers to follow documents being discussed online, real-time. It can be accessed without a password by logging in as a guest during the call after clicking on the following link: <http://iccsafe.adobeconnect.com/isphc/>

The purpose for this meeting is for the IS-STSC Committee to begin the process of developing a prospective ANSI standard for solar heating and cooling systems used for residential and commercial pools, spas and hot tubs. The tentative agenda will be posted on the ICC webpage for the standard at: <http://www.iccsafe.org/codes-tech-support/codes/code-development-process/standards-development/is-phsc/> All meetings are open to the public.

The Solar Thermal Standard Consensus Committee (IS-PSHC) was appointed by the ICC Board of Directors in July 2015 and has primary responsibility for the development of the proposed standard. All standard development is subject to ICC's ANSI-approved standard development procedures, which conform to the consensus requirements in the ANSI Essential Requirements.
