APPENDIX A: Interpretation Policy and Procedures

Purpose.

The purpose of the committee's activity is to provide official comments on the meaning and intent of the provisions of the American National Standard for which the committee is responsible. It shall be the responsibility of the committee to review and ballot on preliminary committee interpretations in accordance with the procedures indicated herein. A preliminary committee interpretation approved by the committee will be issued by the secretariat as a committee interpretation.

Committee Interpretations.

- a. Purpose. A committee interpretation is intended to interpret the literal text of the standard and/or to interpret the intent of the text based upon the development of the standard. Committee Interpretations are intended to represent the official position of the committee. Any other statement either written or oral shall not be considered, referred to, or relied upon as a committee Interpretation.
- b. Intent. The intent of the committee interpretation process is to clarify issues which do not appear to be addressed directly by the standard and are hence interpretive in nature. A request for committee interpretation will not be processed if such a request involves:
 - A determination of compliance of a specific product, design or installation,
 - A determination of compliance of an equivalency of protection,
 - A review of a project's plans or specifications,
 - A judgment or knowledge that is not readily available in the inquiry or which can only be acquired as a result of an on-site inspection,
 - Text that clearly provides the requested information, or
 - An issue which cannot be clearly and concisely phrased in the question asked.

Processing.

- c. Requests. A request for a committee interpretation may be submitted by any person and shall be submitted in writing to the Secretariat.
- d. Evaluation. Each request received will be reviewed by a three-person panel, appointed by the chairman for conformance to 2.2. Any request not conforming with Section 2.2 will be returned to the inquirer with an explanation.
- e. Preliminary Interpretation. The Secretariat processes each request, providing answers and reasons for the answers to the interpretation questions, and distributes the request to each ICC committee member for deliberation and ballot.
- f. Ballot Return: Committee members must vote approval or disapproval and return the ballot within 20 calendar days from time of receipt. A disapproval vote of the interpretation must be accompanied by the reason for disapproval.

Committee Voting.

- g. First Ballot: A unanimous approval vote by the committee is required for the interpretation to be approved on the first ballot. If one or more committee member votes for disapproval on the first ballot, the interpretation request is returned to the committee for re-ballot with the reasons as given by the members voting for disapproval.
- h. Second Ballot: Sixty Seven percent (67%) approval votes are required on the second ballot for acceptance. If there are less than sixty seven percent (67%) approval votes, the interpretation request shall be considered unresolved pending action in 4.3.
- i. Unresolved Interpretations: Unresolved requests for interpretations shall be rewritten by the Secretariat, after due consideration of negative comments, and resubmitted for voting in accordance with 4.1 and 4.3. Should this re-voting fail to gain the necessary sixty seven percent (67%) positive

votes, the Secretariat shall notify the requesting party in writing, citing the negative comments as reason for failure to reach a committee consensus, and a committee interpretation shall not be issued.

Distribution.

- j. Interpretation Distribution: Committee interpretations shall be distributed in writing to the requestor and shall be made publicly available by ICC.

Records.

Complete records of matters pertaining to committee interpretations shall be maintained by the Secretariat for a period of one complete cycle or until the standard is revised.
