Building Safety Month (May, 2025)

Building Safety Month is an annual public awareness campaign culminating in May that is celebrated by jurisdictions worldwide to help individuals, families and businesses understand what it takes to create safe and sustainable structures. Since 1980, the campaign has reinforced the need for the adoption of modern, regularly-updated building codes, a strong and efficient system of code enforcement, and a well-trained, professional workforce to maintain the system. The theme for 2025 is “Game On!”

The Code Council heavily promotes Building Safety Month to its members and chapters worldwide as well as professionals from the building construction, design and safety communities. Building Safety Month sponsors support the program because they understand the need for safe and sustainable structures where we live, work and learn.

Building Safety Month is made possible through the efforts of extraordinary sponsors who receive an unparalleled opportunity to stand out as leaders in building safety. This campaign is a chance for sponsors to reach the Code Council membership, others in the built environment and the public. Each year we receive additional recognition and attention for the importance of building safety by community leaders around the globe.
