

IECC/HERS Compliance Specialist Designation

OPEN THE DOOR TO NEW BUSINESS OPPORTUNITIES

What is this designation?

This designation combines energy code knowledge with the energy efficiency and building science knowledge of HERS Raters and RFIs to recognize individuals qualified by the International Code Council to conduct energy code plan review, inspection, and testing.

Who's eligible to become an IECC/HERS Compliance Specialist?

All certified RESNET Home Energy Raters (HERS Raters) and Rating Field Inspectors (RFIs) who have passed the ICC Residential Energy Inspector/Plans Examiner Certification test.

Why should I seek this designation?

ICC is the membership association of building safety professionals including code officials.

It enhances your credibility with builders, building code departments and code officials.

IECC/HERS Compliance Specialists are the professionals needed by builders and local code departments to ensure cost-effective compliance with building energy codes.

Energy code requirements have grown increasingly more stringent since 2006.

Requirements for inspections and testing require professional knowledge and skills.

Achieving this designation opens new business opportunities for HERS Raters and RFIs.

How can I achieve this designation?

HERS Raters and RFIs must challenge and pass the ICC Residential Energy Inspector/Plans Examiner Certification test.

Upon successful completion of the test, active, certified RESNET HERS Raters and RFIs will receive the ICC IECC/HERS Compliance Specialist Designation from ICC.

How can I get started?

1

Study the International Energy Conservation Code (IECC) or take a training.

2

Register to take the online, proctored Residential Energy Inspector/Plans Examiner test at: www.iccsafe.org/certification-exam-catalog/

TAKE EXAM

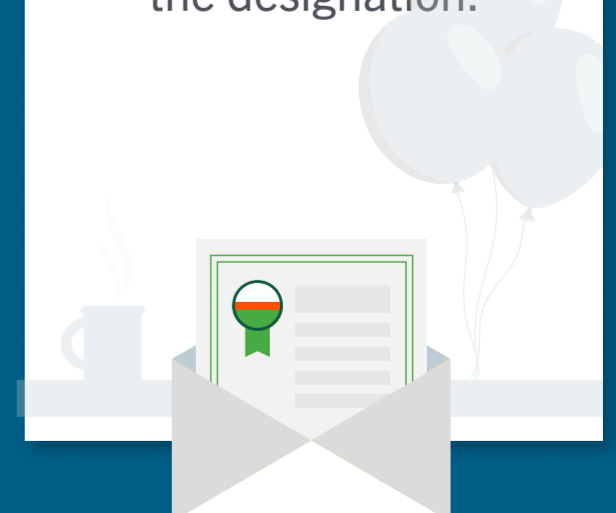

3

Successfully pass the test.

4

Submit your RTIN or RFIIN to ICC to receive the designation.
