

INSPECTION SERVICES

Inspections and Quality Audits

Inspections to Support Your Quality Programs

Inspections can help guard against manufacturing defective products. A thorough inspection will ensure your product meets or exceeds customer expectations, contractual obligations and regulations.

Independent Inspection and Audits

NTA is A2LA accredited under ISO/IEC 17020 to provide inspection services.

- ▶ Building product manufacturing
- ▶ Park model manufacturing
- ▶ Modular structures
- ▶ Manufactured housing (IPIA)
- ▶ Surveillance audits for other 3rd Party Certification Agencies

From a Reputable Company

Since 1976, NTA has been recognized as a leader in third-party inspections globally and is now a member of the International Code Council (ICC) family of solutions.

Performed by Knowledgeable Inspectors Globally

NTA's inspection professionals have completed hundreds of building code exams, and have over 190 combined inspector licenses and certifications. NTA can inspect volumes and pods manufactured anywhere in the world for installation in the MENA markets and has inspected factories already conducting off-site construction activities in China, Poland, and Kosovo for products installed in the US.
