

STUART D. TOM, P.E., CBO, FIAE

201 N. Euclid Avenue, Suite A

Upland, CA 91785

(805) 750-1249

EDUCATION

- 1979-1984 **University of California, Berkeley**
Major: Chemical Engineering
Minor: Civil Engineering
- 1984-1985 **California Polytechnic University, San Luis Obispo**
Major: Civil Engineering

PROFESSIONAL EXPERIENCE

- 2017-Present **JAS Pacific, Inc.**
President of consulting engineering firm that provides a broad range of professional services for local government jurisdictions. JAS Pacific, Inc. supports municipal building departments, public works agencies and code enforcement divisions for local jurisdictions throughout California.
- 2015-Present **International Code Council (ICC) – Board of Directors**
Director on the ICC Board. Provide guidance and direction to the Chief Executive Officer regarding all major aspects of the organization, including those related to code development, budget, accreditation and acquisition of subsidiary organizations.
- 2013-2017 **City of Glendale, California**
Fire Marshal. Responsible for oversight of fire- and life-safety standards necessary to protect the general population. Management of Fire Engineering Division, which performs fire plan check for all new construction throughout the city. Management of Fire Inspection Division, which performs construction inspection and annual occupancy inspections for all buildings throughout the city. Administer programs related to hazardous and industrial waste management critical to protect the environment.
- 1998-2013 **City of Glendale, California**
Building Official/Superintendent of Buildings. Responsible for the oversight of engineering, inspection, and administrative activities for the third largest city within Los Angeles County. Directed all activities within the Permit Services Center including the review of development plans to ensure compliance with zoning, building, fire, traffic, and grading standards. Active participant in numerous programs designed to improve the application of plan review and inspection services within the Southern California Region. Successfully reorganized the Glendale Building Department and implemented numerous programs to improve customer service delivery, while concurrently improving the quality of plan review and inspection programs. Concurrently served as city's Project Management Administrator for more than one year while recruitment of a new administrator was conducted. During such period of time, responsible for overseeing the development of nearly all Capital Improvement Projects (CIP), including facilities to expand services for the Parks, Police, and Fire Departments.
- 1985-1998 **City of Los Angeles, California**
Served in multiple capacities within the Department of Building and Safety, including Engineering Bureau Training Officer, Staff Engineer/Secretary to the Board of Building & Safety Commissioners, Earthquake Division Squad Leader, and Structural Engineering Specialist for Urban Search and Rescue. Established and administered a technical training program to improve the quality and consistency of engineering and zoning expertise within the Department of Building and Safety. The training program included formal education, within a classroom environment; field exposure to actual construction sites; and informal training through a weekly "tailgate training" program. Selected as Employee of the Year (Fiscal Year 1995-1996).
