OLD CHAPTER	NEW CHAPTER	SUBJECTS	NOTES
1	1	Scope and Administration	unchanged
2	2	Definitions	unchanged
6	3	Classification of Work	Define Major Categories. All other descriptions fall under one of these: => Alterations => Additions => Repairs => Change of Use Classification or Use Designation => Relocated or Moved Buildings => Historic Buildings
3	4	Provisions for Work-All-Compliance-Methods	Rearrange sections into traditional categories. Add categories if needed to collect repetitive provisions in other chapters: => Means of Egress => Accessibility => Fire Protection and Life Safety Systems => Structural Design => Other Requirements => etc.
---	5	Provisions for Special Use or Occupancy	Relocate unique/specialty bldg type provisions into this chapter. => Storm Shelters => High Rises => Educational Occupancies => Bleachers, grandstands and folding and telescopic seating
4	6	Repairs	Create consistent sections in each chapter with specialty sections added under "Other Requirements" as necessary:
11	7	Additions	=> General
7	8	Alterations - Level 1	=> Special Use and Occupancy
8	9	Alterations - Level 2	=> Building Elements and Materials
9	10	Alterations - Level 3	=> Fire Protection and Life Safety Systems => Means of Egress
10	11	Change of Occupancy Classification or Use Designation	=> Repairs => Structural
12	12	Historic Buildings	=> Electrical => Mechanical
14	13	Relocated or Moved Buildings	=> Plumbing => Other Requirements => Energy Conservation
15	14	Construction Safeguards	unchanged
16	15	Referenced Standards	unchanged
5	---	Prescriptive-Compliance-Method-for-Existing-Buildings	Deleted: move prescriptive provisions into the Work Area provisions if desired
13	---	Performance-Compliance-Method-for-Existing-Buildings	Deleted: administrative chapter always provides mechanism to use performance based design, clarify if required and ensure fire provisions are preserved elsewhere if necessary
Appendix A		Guidelines for Seismic Retrofit of Existing Buildings	Relocate single-family only specific provisions into the IRC. IEBC is
Appendix B		Supplementary Accessibility Requirements for Existing Buildings	applicable in scope to all building types and Appendices should follow the
Appendix C		Guidelines for the Wind Retrofit of Existing Buildings	same scope.
Appendix D		Board of Appeals
