

PROPOSED CTC S.O.S. AND WORK PLAN

Submitted by Luke Woods - September 19, 2005
On Behalf of the Alliance for Smoke Containment and Control CTC Task Group

Modify scope statement to the following:

Scope

- To assess what constitutes an appropriate balance of active and passive fire protection requirements with respect to meeting the fire safety goals of the I-Codes

Modify goals and objectives to the following:

Goals/Objectives

1. To identify the code requirements applicable to active and passive fire protection
2. Define “acceptable level of fire safety”
3. Develop a methodology in order to determine “acceptable levels of fire safety”
4. Define “balanced fire protection design”
5. Assess the balance of active and passive fire protection code requirements using the methodology developed per objective #3
6. Determine appropriate code requirements to achieve acceptable levels of fire safety

Balanced Fire Protection – Proposed Work Plan
Proposed 9-19-2005

1. CTC to revise their scope and objectives
2. CTC to define terms
 - a. “Acceptable levels of fire safety”
 - b. “Balanced fire protection design”
3. CTC to set up task group to develop a methodology in order to determine “acceptable levels of fire safety”
4. CTC to set up task group to develop fire scenarios for the methodology identified in item #3
5. CTC to establish a task group of stakeholders to participate the methodology identified in item #3
6. Completion of a comparative matrix by interested parties for the subject matter to be considered
7. Identification of specific subjects by interested parties for CTC to review. Subjects may or may not be on the comparative matrix
8. Identification and submission of supporting docs by interested parties – Koffel consequence analysis approach, if used, would be here as one way of evaluating the issue.
9. CTC meeting(s) to discuss. By-product of the evaluation of an issue may be some type of methodology to evaluate issues.
10. CTC issue findings in a report
11. Public hearing on report
12. Report finalized and submitted to CEO per CP #5, including whether CTC to determine whether or not to submit code changes thru ICC CDP
