The ICC was founded in 1994 as a nonprofit organization dedicated to developing a single set of comprehensive and coordinated national model construction codes. The founders of the ICC are Building Officials and Code Administrators International, Inc.® (BOCA®), International Conference of Building Officials® (ICBO®), and Southern Building Code Congress International, Inc.® (SBCCI®). Since the early part of the last century, these nonprofit organizations have developed the three sets of model codes used throughout the United States.
