E. Wirtschoreck, ICC Staff

FROM: Jonathan Humble, Chairman

DATE: 19 March 2010

SUBJECT: International Green Construction Code
Public Version 1.0, March 2010

Now that the International Green Construction Code is out for public review and comment we will need to organize ourselves for a review of the referenced standards proposed for consideration.

For the ICC-RSC's information, during the drafting of the Public Version 1.0 it was brought to the attention of the drafting committee the impact of CP28 (Section 3.6) and the fact that the ICC Reference Standards Committee may weigh in through public comments regarding standards which did not comply with Section 3.6.

From our perspective, we have until 14 May 2010 to produce and submit any code change proposals to ICC for consideration at the public hearing. The hearing will be held in Rosemont, IL from 14-22 August 2010.

The following is a preliminary list of referenced standards which appear to require further scrutiny. This is not a complete list, but will serve us as a starting point.

- AHRI 870
- APHA
- ARB (Consensus)
- ASA S12.2 (Mandatory Language)
- ASHRAE 140 (Mandatory Language)
- ASTM E1602, E2396, E2400
- CCR (Consensus)
- CRRC (Watch at this time, is completing ANSI process for document)
- CDHC (Consensus)
- DOC/CH/10093-4-10/86 (Not a federal law)
- EPA Energy Star (Not a federal law)
- ISO (Consensus)
- NREL
- SCAQMD (Consensus and mandatory)
- SFI
